Voyantrix: A Closer Look

Voyantrix, a joint venture formed by Canarys and Viaggio, represents a synergistic union of technological prowess and strategic vision. Our comprehensive product management services guide your product from concept to scale, ensuring a strong foundation for growth and success. We have a proven success track record, having served over 500 clients across diverse sectors for over three decades. Our collaborative approach enables us to deliver bespoke solutions that empower businesses to achieve their growth objectives.

Ignite Growth with Voyantrix

- ▶ Benefit from 30+ Years of Expertise: Our deep industry knowledge translates into superior solutions that drive your success.
- ▶ Experience Collaborative Excellence: Strategic vision and technical expertise, delivered through our partnership with Canarys.
- ▶ A Proven Track Record of Success: We have earned the trust of over 500 clients across diverse sectors by consistently delivering impactful results that exceed expectations.
- ▶ Prioritizing Your Needs: We create meaningful solutions tailored to your specific goals and challenges
- ▶ Innovation First: Leveraging the latest technologies to drive your business forward.
- ▶ Global Reach: Catering to Diverse Markets and Industries Across the Globe.

Growth Strategies for the Future

Consulting & Advisory

Our consulting services help you redefine processes, align IT strategies with your goals, and drive change through effective training. This leads to increased efficiency and a significant return on investment.

Product Development

Our comprehensive product management services guide your product from concept to scale, ensuring a strong foundation for growth and success.

DevOps & Automation

Our DevOps solutions simplify software delivery and infrastructure management, including CI/CD, automated testing, and Infrastructure as Code. They accelerate innovation and improve reliability.

Unlocking Success with Technology

Cloud Services

Seamless migration, optimized performance, and cost-effective infrastructure. Our multi-cloud strategies empower effortless scaling and unmatched resilience.

AI & Machine Learning

Smarter decisions, better efficiency, and unlocked opportunities through ^{predictive} analytics, virtual assistants, and automated processes.

Digital Transformation

Shaping the Future: Custom software, IoT solutions, and reimagined workflows. We combine technology and strategy to drive innovation and adaptation.

The Industries We Touch

Healthcare:

- » Advanced healthcare management platforms.
- » AI-driven patient care solutions.
- » Secure EHR integrations.

Finance and Banking:

- » Secure fintech solutions.
- » Risk assessment and fraud detection.
- » Regulatory compliance tools.

EdTech:

- » Virtual learning management systems.
- » AI-driven student analytics.
- » Digital content creation and delivery.

Public Sector:

- » E-governance platforms.
- » Citizen engagement solutions.
- » Data analytics for policy-making.

Stories of Impact

Cloud-First Transformation in the Healthcare Sector

Delivered a scalable cloud solution to enhance patient management systems.

Retail and E-Commerce:

- » Omnichannel customer engagement.
- » Inventory management and automation.
- » Personalised marketing and analytics.

Manufacturing:

- » IoT-powered smart factories.
- » Predictive maintenance platforms.
- » Supply chain optimisation.

Hospitality:

- » Guest experience management platforms.
- » AI-powered booking systems.
- » Revenue optimization tools.

Past Performance

Microsoft

- » Developed and managed the Azure DevOps Demo Generator, a pivotal tool empowering sales specialists worldwide.
- » The platform enables the creation of compelling, customized demos with ease, driving customer engagement.
- » Our solution continually evolves to meet Changing market needs, ensuring Microsoft's sales teams remain at the forefront of innovation.

Granite

- » Provided dedicated Network Operations Center (NOC) support to ensure continuous network availability and operational stability.
- » Through proactive monitoring and rapid incident resolution, we minimize downtime and optimize network performance.
- » In collaboration with key stakeholders, including Bala, our tailored solutions address Granite's specific infrastructure challenges.

Gallagher

- » Delivered comprehensive managed solutions by supporting Gallagher's OutSystems platform, enhancing their claims management process.
- » Our expertise has streamlined operations, reducing processing times and improving overall efficiency.
- » This robust support system ensures that Gallagher can handle high-volume claims seamlessly while maintaining quality and compliance.

Simplify Healthcare

- » Managed cloud licensing and delivered end-to-end support to optimize cloud usage and drive operational efficiency.
- » Our approach ensures a secure and scalable cloud environment, essential for the evolving needs of healthcare operations.
- » Working closely with Sajith, we continuously refine our support model to enhance performance and cost-effectiveness.

Past Performance

Philips

PHILIPS

- » Implemented and migrated comprehensive DevOps solutions, significantly enhancing development efficiency & team collaboration.
- » Our ongoing support and tailored integration strategies have streamlined workflows and reduced time-to-market.
- » This initiative has empowered Philips to maintain a competitive edge through continuous improvement and agile practices.

Naava

- » Implemented a comprehensive healthcare platform, addressing fragmented services and improving scalability and efficiency.
- » Integrated AI-driven workflows, secure APIs, & cloud infrastructure to streamline operations & foster collaboration between providers & patients.
- » This initiative has empowered Naava to optimize healthcare delivery, enhance compliance, and drive intelligent, scalable solutions across its ecosystem.

Florida Hurricane

- » .Developed a mobile and web app for efficient task assignment and tracking.
- » Users can view daily task tickets, ensuring clear visibility of pending work.
- » Location tracking ensures tasks are completed in the correct area.
- » Offline functionality allows users to continue work even in network outages, such as post-hurricane scenarios.
- » Data syncs automatically when the internet is restored, ensuring seamless updates.
- » Admins can monitor live restoration reports daily through the web app, enabling real-time decision-making.
